## Quality Policy

### Company's Mission

To provide high-quality services of hardware design, software development, and testing of hardware, firmware, and software, fulfilling the mandatory requirements and exceeding the expectations of all stakeholders, maintaining and improving the professional level to ensure sustainable income and development of the Company.

### Company's Commitments in the field of Quality

- compliance with the ISO 9001:2015 requirements;
- applying risk-based thinking when planning and implementing Quality Management System processes;
- maintaining the quality of the services provided at a level that meets the customer requirements and mandatory legal regulations;
- ensuring a stable economic position of the Company due to the quality of services provided and the image of the organization as a reliable partner and employer;
- continuous improvement of the Quality Management System and increasing its effectiveness.

*The Quality Policy is consistent with Promwad's core intentions, communicated to staff, reviewed for continued suitability, and provides a basis for setting and reviewing quality goals.*

*The top management assumes the responsibility for providing resources to introduce the Policy and is responsible for its implementation.*

Raman Pakholkau  
Chief Executive Officer
